BLAKEMORE ROD FLOATS

Great Insurance for Kids rods!
Small and Large

BLAKEMORE BRUSH GRIPPER

A brilliant idea for the canoe or small boat angler.

Simply tie the end of the 10 foot lanyard to the boat and then clip the Brush Gripper to an overhanging branch or the bank. Instant Anchor!

The harder you pull the tighter the Brush Gripper holds on to the branch.

STAND UP BELT

A great belt for all anglers, swivel gimbal with soft foam back and fast adjust clip

TEAM CATFISH GLOW WRAPZ

The name may be strange, but these things work! Self adhering glow tape for rod tips and other applications. Re-use as many times as you like, just charge them with your torch, no more need for bulky glow sticks taped to the rod.

TEAM CATFISH SINKER BUMPERZ

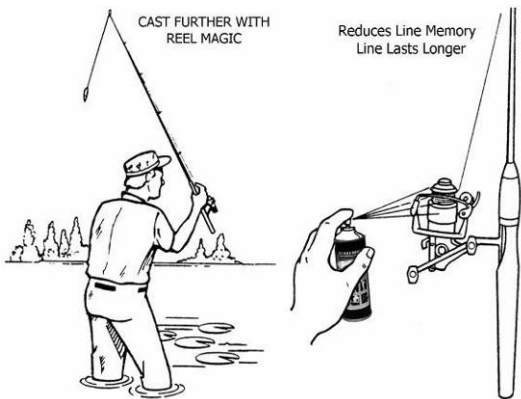

Use instead of beads, non glowing option to avoid leatherjacket bite off.

After washing reels down, a good spray of Reel Magic will keep your bail arms and handles running smoothly, as well as condition your line for longer casts.

Truly REEL MAGIC

- Improves line speed and cast distance
- Retards line memory
- Stops spinnerbait skirts sticking together
- Prevents spool corrosion
- Odourless when dry
- Now available in two sizes, 6 oz and 16 oz

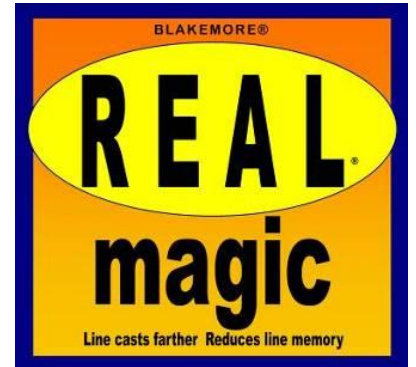

REAL MAGIC REEL LUBE IS NOW AVAILABLE!

16OZ

6OZ

The long awaited grease from Real Magic.

This white PTFE Teflon grease is specifically formulated for use on fishing reels and will not dissolve or emulsify in water.

The Teflon formulation does not allow adhesion of moisture to the grease so water can't stick to it! That means no problem with water, oil or oil containing materials.

This grease is extremely stable and will not wash off or cake on parts in you reels.

Reel Magic lube will reduce friction, wear and inhibit corrosion on all your reels used in salt and fresh water.

Grease applicator included.
