

It's Easy! Just Tie One Knot and You're Fishing!

- Works with Soft Plastics and Live or Dead Baits.
- "UP" Presentation Offers Better Visibility to Fish.
- Lever Action Induces More Strikes
- Stand Out Presentation is above Snags, keeping your rig safe.
- Fish around vertical structure in the Zone, easier.
- Available in the Red Alert Finish that Triggers More Strikes.
- Paternoster style rig allows exact setting of bait depth.

Available in three sizes, attractively packed for hangsell.

Stand Out Lever Action Fishing System is Simple. How to Rig...

1. Tie Palomar Knot on top eye with a long tag-end. (Don't Cut the tag-end.)
2. Run the tag-end through the lower eye of the hook.
3. Secure sinker to tag end at desired distance and fish!

Tip: Inspect line while you fish and re-tie often.

What's it all about?

- 4 micro cutting edges insure structural integrity and strength.
- Perfect, straight points are always parallel to line of pull.
- Perfect for soft plastic stickbaits and large worms rigged weedless
- XPoints are made from 110 carbon steel. Others boast about their 80 rating.
